

BSTP Application Guidance for those who seek credits at Graduate School, the University of Tokyo(東大履修生用注意事項)

- 1) Application requires the completion of the online registration form. Please read through the criteria and application details on the website. Once you are admitted in the course, you must register syllabus by yourself using UTAS by the due date designated by the Univ. of Tokyo in order to earn credits.

**Due to the space limitation, screening process for Univ. of Tokyo students will begin as soon as all application documents are in order, and the result will be notified as quickly as possible.**

- 2)The course is a year-long program starting in October 2021–June 2022. Therefore, only the students who are eager to take both autumn and spring course are eligible. Be sure to register syllabus for both terms as stated in 1).

The name of the course for Autumn:脳科学特論 I/Special Topics in Brain Science I

The name of the course for Spring:脳科学特論 II/Special Topics in Brain Science II

- 3)If you have inquiries regarding the UTAS system registration in relation with your graduate school curriculum, please consult the administrative office at the Graduate School.

- 4)Grade evaluation will be assessed by attendance rate, Mid-Term and Final examinations, and Presentation. 80% of the attendance rate is required at the time of Mid-Term Examination and also at Final Examination.

- 5) In case when the number of applications exceeds the capacity, we may close the application earlier than deadline.

BSTP Application Guidance for those who seek credits at Graduate School, Waseda University (早稲田大学履修生用注意事項)

RIKEN CBS has an accreditation agreement only with School of Advanced Science & Engineering (先進理工学研究科)、and School of Fundamental Science & Engineering(基幹理工学研究科). If you have any inquiries, please ask University Administrative Office.
