RIKEN BDR

Michelle Monje  
Stanford University

Kaori Muto  
RIKEN IMS

Ai Nakashima  
The University of Tokyo

Pieter Roelfsema  
NIN

Peter Scheiffele  
University of Basel

Takamitsu Watanabe  
The University of Tokyo

#### Organizing Committee

Aya Ito-Ishida (Chair)

Atsushi Takata (Co-Chair)

Hiroyuki Kamiguchi

Motomasa Tanaka

Akiko Hayashi-Takagi

The RIKEN CBS Summer Program 2026 will explore the fundamental principles underlying children's brain development and neuropsychiatric disorders. We will cover diverse yet essential topics, including genetic and synaptic mechanisms, network dynamics, and developmental psychology. Additionally, the program will highlight translational studies that demonstrate how basic research can improve clinical practice.

The list of speakers is subject to change.
