

CURRICULUM VITAE

Name: Tetsuo Yamamori

Education

1974: BA, Kyoto University

1976: MA, Kyoto University

1980: Graduate doctoral course of Kyoto University

1981: Dr. of Science, Kyoto University

Professional Research Experience

1980 March to 1981 March: Research fellow of Japan Promotion of Science

1981 April to 1981 September: Research fellow of Institute for Virus Research, Kyoto University

1981 October to 1986 February: Postdoctoral fellow

Department of Molecular, Cellular and Developmental Biology,
University of Colorado, Boulder (Dr. Noboru Sueoka)

1986 March to 1991 February: Postdoctoral Fellow

Division of Biology, California Institute of Technology (Dr. Paul
Patterson)

1991 February to 1994 March: Research fellow

Frontier Research Program in RIKEN (Dr. Masao Ito)

1994 April to 2015 March: Professor, National Institute of Basic Biology

1995 November to 1998 October: Concurrent Professor, Department of Biophysics, Kyoto
University

2008 April to 2013 March: Vice Director-General of National Institute for Basic Biology

2013 March to 2013 September: Deputy Vice Director-General of National Institute for Basic
Biology

2008 April to 2015 March: Concurrent Professor, National Institute for Physiological Sciences

2014 July to 2018 March: Team leader of Molecular Analysis of Higher Brain Function in
RIKEN-BSI

2018 April to present: Team leader of Molecular Analysis of Higher Brain Function in RIKEN-CBS

Members of

Japanese society for Neuroscience

Society for Neuroscience (North America)

Japanese Society for Marmoset Research (JSMR)

Professor emeritus of

National Institute for Basic Biology

The Graduate University for Advanced Studies [SOKENDAI]

Editorial Board

Review Editor for Frontiers in Neuroanatomy
